

## Sonema presents VISIO+, a new videoconferencing service

Monaco, 21 november 2016

Transport cost and risks, discomfort and stress for staff, team-work necessary for corporate performance....: These key issues associated with mobility make videoconferencing a reliable alternative to travel. In order to become established on the market, a videoconferencing service must be efficient, easy to use, and quick to implement.

**To meet this challenge, Sonema is launching a bespoke videoconferencing service, which can be used across multiple platforms and which offers a dedicated concierge service.**

This **turnkey** Sonema service is very easy to use; meetings can be organized in just a few clicks of your mouse. The participants simply connect via their Visio+ room or from any device. Visio+ also manages the interoperability with Microsoft Outlook. During the deployment phase which is fast and doesn't require any specific resources, you will benefit from the expertise and support of the Sonema team.

Its **interoperability**, a true technological innovation on the market today, makes Visio+ a robust and high-quality managed service. Easily accessible from most videoconferencing devices and computers or whilst mobile from all handheld devices such as smartphones, tablets or computers, it eliminates the need to invest in a costly gateway.

The **concierge service** is a feature specific to Sonema. The service is operated by our dedicated team of experts live from the Technical Centre based in Frejus, and provides additional assistance for the user and advice on how to avoid problems during meetings held via Visio+.

### The main features of Visio+:

- **Document sharing** : share documents or your desktop
- Compatible with **all types of network** (MPLS, VSAT, dedicated Internet, 4G) with dynamic output adaption according to congestion and the type of device used.
- **Unlimited Access** : Use the service as often as you want there is no limit to the number of video conferences per month or the duration of the video conferences and add up to **100 participants simultaneously**
- Meeting rooms **available 24/7**
- Administrator and Presenter Mode : easily manage the room (microphone, document sharing, invitations and participant callbacks)
- **"Active Speaker"**: Technology which conveniently identifies who is speaking

Developed in partnership with industry leader Vidy, Visio+ from Sonema allows its customers to enjoy a high-quality Cloud-based type of service whilst keeping costs to a minimum via a paid subscription.

Jean-Claude Daudin, Sonema's Sales & Marketing Director adds: « *To be able to launch or join a videoconference from any network and using any kind of handheld device is a major advantage for the success of this type of communication. Sonema is going a step further by offering a service which is easily implemented, simple to use on a daily basis and supported by a dedicated concierge system*».

An interactive tool to freely communicate with remote teams, customers or partners, the Visio+ videoconferencing service enables efficient collaboration, speedy decision-making and establishes productivity goals for businesses.
