

*Tailor-made Connectivity!*

Dedicated, secure, high-performance  
terrestrial connectivity

## SECURE AND SEAMLESS CONNECTIVITY: A BUSINESS REQUIREMENT

- Maximal network availability wherever you are in Europe and Africa
- Private, highly secure network for all your business-critical applications
- Data and throughput prioritising for seamless communication systems
- Scalable and adaptable networks to meet your requirements

## SONEMA'S TERRESTRIAL MPLS: AN EFFICIENT TAILOR-MADE SOLUTION

### Optimal networks

- Dedicated connectivity using MPLS protocol
- Extended coverage
- Service managed by our specialists
- Controlled performance

### Reliable and robust

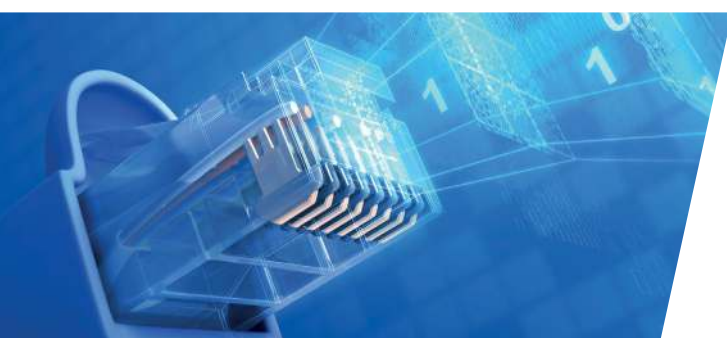

- Guaranteed security and resilience
- Guaranteed SLA commitments
- Network visibility and control

### Flexibility and scalability

- Different levels of resilience available
- Class of Service management (CoS)
- Nominal, backup or hybrid networks
- Ease of configuration

## CONFIGURATION

Terrestrial networks based on a Layer 3 (L3) international or domestic MPLS\* protocol.

### Europe-Afrique

### Intra-Africa

### Domestic

- International fibre optic links via terrestrial or underwater cables
- Local loop technology:
  - Fibre optic
  - WLL (wireless local loop)
  - Radio systems
  - Copper

\*Multi-Protocol Label Switching

## BENEFITS

Dedicated symmetrical access: throughput from 1Mbps to 1Gbps

Highly-secure connections combined with high-performance SLAs

Secure, prioritised throughput

Rapidly scalable network capacity

Routes operated via the Sonema NOC 24/7

SLA compliance monitored via web-based interface SkyView

*Your data, voice and videoconference communications plus your business-critical applications, are all completely private and secure.*

## QUALITY OF SERVICE

- Fully managed tailor-made services
- High-performance Service Level Agreements (SLA)
- Full QoS support
- Intelligent data routing to minimise latency
- Proactive supervision

## LEVELS OF NETWORK RESILIENCY

SILVER

International segment and non-redundant local loops

GOLD

Redundant international segment / Non-redundant local loops

PLATINUM

Redundant international segment and separately redundant local loops

\*Level of service to be determined according to site location

## ADDITIONAL OPTION

UPON REQUEST

International segment non-redundant / Redundant local loops

*Scalable architecture to accompany your evolving telecom needs.*

## SONEMA ALWAYS WITH YOU

*A team of experts at your service*
